By law, any child under the age of 18 years old cannot be seen by a doctor without consent from a parent or legal guardian, except for life-threatening conditions. Please note that grandparents and other family members are not automatically considered legal guardians. If the minor arrives with someone other than a parent or legal guardian, we must have written permission from the parent or legal guardian that this person has been appointed by you to act on your behalf or you risk your child not being seen.

This is a legal document. With it you may appoint anyone who is over the age of 18 years of age to be responsible for your child when you are unable to accompany them to their medical appointment.
